ID	Description	Pre-conditions	Steps to reproduce	Expected result	Status	Comments	Screenshot
LOG01	Sign in using “sign in” button with proper e-mail adress and associated password	Opened GOG Galaxy 1.2.54 Beta, must not be logged in	1. Click “sign in” button 2. Enter valid email adress into upper box 3. Enter associated passwird into lower box 4. Click “login now” button	User succesfully logged in	passed	We have two buttons working exactly same way	
LOG02	Sign in using “connect” button with proper e-mail adress and associated password	Opened GOG Galaxy 1.2.54 Beta, must not be logged in	1. Click “connect” button 2. Enter valid email adress into upper box 3. Enter associated password into lower box 4. Click “login now” button	User succesfully logged in	passed	We have two buttons working exactly same way	
LOG03	Sign in offline	Opened GOG Galaxy 1.2.54 Beta, must not be logged in, system offline	1. Click “sign in” or “connect” buton	User cannot log in, message “You cannot sign in while offline”is shown	failed	User cannot log in, but message states “an error occurred while loading page” which misses the point	LOG04	Sing in via Facebook	Opened GOG Galaxy 1.2.54 Beta, must not be logged in	1. Click “sign in” button 2. Click “continue with Facebook” button	User succesfully logged in	failed	Program redirect user to default browser and opens https://login.gog.com/login_process/ which is not necessary and annoying. User's name lack non latin diacritical signs	
LOG05	Sign in after changing account, (pass picture captcha test)	Opened GOG Galaxy 1.2.54 Beta, must not be logged in, must be logged in on previous or current session	1. Click “sign in” or “connect” button 2. Click “change account” button 3. Enter valid email adress into upper box 4. Enter associated password into lower box 5. Check “I'm not robot” box 6. Pass reCAPTCHA picture test	User succesfully logged in	failed	Even knowing that the test is passable we should consider reCAPTCHA part as a very problematic. This puzzle is too complex, difficult and taking too much time. I waste approximately 2 minutes to prove that I'm a human. Am I?	
LOG06	Sign in after changing account, (pass audio captcha test)	Opened GOG Galaxy 1.2.54 Beta, must not be logged in, must have been logged in on previous or current session	1. Click “sign in” or “connect” button 2. Click “change account” button 3. Enter valid email adress into upper box 4. Enter associated password into lower box 5. Check “I'm not robot” box 6. Click “get an audio challenge” icon 7. Pass audio tests	User succesfully logged in	failed	Clicking “get an audio challenge” icon does'n give that challenge, instead error message is shown (see screenshoot)	LOG07	Sign in entering wrong password	Opened GOG Galaxy 1.2.54 Beta, must not be logged in	1. Click “sign in” button 2. Enter e-mail adress into upper box 3. Enter not matching password into lower box 4. Click “log in now” button	User not logged in, “invalid password” message shown	passed
